# HISTORY

In May **1995** Unplugged got on stage for the first time.

The event brought a lot of experience, which were improving year by year. In **2001**, under the leadership of a Canadian professor, Unplugged reached qualities of a huge event recorded by the Czech Radio and streamed over the Internet.

Then a four-year pause came. After the renewal of the organizing team in **2005** the event resumed and everything started to move again. Next 3 years the festival thrived unless the team of students graduated and left the school.

Again, there was a four-year pause. Everyone was afraid to organize the event of huge proportions, which entailed very high demands and long history. Yet the new students appeared in **2011** and returned life to Unplugged.
